DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/11/2007 has been entered.

Claim Objections

Claim 31 is objected to because of the following informalities: in the last indent, "a hole edge" should read "the hole edge", as the hole edge has already been defined in parent claim 29. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 37 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 37 recites "the holder portion". There is insufficient antecedent basis for this limitation in the claims.

Claim 37 recites "a bottomed agitating shaft portion". It is not clear if this feature relates to the previously recited "internal agitating sleeve" or is an additional feature.

Allowable Subject Matter

Claims 6, 15-16, 23, 27-29, 31, 33, 35-36 and 38 are allowed.

Claim 37 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
